To our Valued Employers-

We have exciting news! **Jubilee Homes of Syracuse, Inc.'s Build to Work (B2W) Program** will be hosting our monthly 60 hour Soft-skills, Life-skills and Work Readiness (SLWR) training program. We are currently recruiting for our next trainings scheduled for March 14-25 and April 16-29. To date we have conducted two trainings with 11 participants graduating and work ready!

**Our graduates are interview ready, work-ready and career minded.** All graduates have a case manager and job coach that will work with them and their employer for 12 months. Career interests include careers in retail, food service, agriculture/grocery and hospitality/tourism. We currently have clients in retail employed at Panera Bread, Walmart, Dollar Tree, Puma, TGI Friday's, Wegman's and many more!

Our program is also here to support the employer. If you have employees that could utilize our services, we are happy to assist them for you, too!

B2W recognizes and eliminates barriers to work for job seekers. We understand that without the necessary education and training credentials needed for a career, including academic degrees as well as skill certifications, most job seekers would not be considered for jobs that are in high demand. B2W will be graduating the next group of SLWR in just a few weeks. **Contact us today 315-428-0070 to have access and connections to this highly trained pool of employment candidates!**

Sincerely-

Jubilee Homes of Syracuse, Inc. Build to Work Program Team

*Here is what our clients have to say about our program:*

*"Awesome... it really was! Very supportive, it definitely motivated me. If I can do it anybody can, because I didn't think I could."*

*"Loved it! It was beneficial I learned a lot. A lot of skills, work ready skills, learned a lot about myself. A lot I already knew, but was rusty at. Couldn't ask for anything better, a great staff, too, really."*
